Summary

The annual report provides an accessible and interactive summary of the activities and impact of the scrutiny function over the 2010-11 municipal year.

The report is designed to be read online to save on printing costs and lessen the impact on the environment. Links are embedded throughout the document to provide extra information on particular topics. This enables the report to be both concise and detailed as it acts as a hub to further information.

Efforts have been made to adopt a consistent template whilst allowing flexibility for the different approaches adopted by each committee to be reflected. Each committee chairman has been involved in and signed-off the content for their respective committee. In response to feedback on the 2009/10 annual report, this year's format has been switched from landscape to portrait.

Recommendations

1. The Commission is invited to endorse the annual report.
