2. Reasons for Decision

- 2.1 All assets deteriorate over time and any work aimed at maintaining the durability of the asset is classed as programmed maintenance. Such work prolongs the life of the asset and/or maintains structural capacity and is therefore considered as capital expenditure.
- 2.2 Each year the City Council's regular inspection and testing programmes determine the current condition of the various highway assets (Carriageways, Footways, Lighting and Bridges & Structures) and identifies the forward

investment needs that will keep the highway network in a safe and reliable condition.

- 2.3 Provision has been made in the capital programme for this expenditure to enable these programmes of work to be implemented together with preparation of forward programmes of work for 2022/23.
- 2.4 The proposed Planned Preventative Maintenance programme set out in this report will ensure that the City Council's highway assets remain safe and effective and support the City for All agenda.
