**Subject:** Application 19/01149/LIPV

Application 19/01149/LIPV by Taza Take Away at 35a Queensway, London W2 4QJ for an extension of their trading hours from midnight to 2am.

I strongly oppose this application. The extended trading hours are totally unacceptable within the Queensway stress area. An extension of hours would have a clear negative affect on residents living above and adjacent to the premises.

I am aware of very strong concerns by residents about this application and whether the premises is abiding by its current licensing conditions.

To grant this application would send a very negative message about the extent of the City Council's concerns about limiting the impact of licensed premises on residents.

Andrew
