

Dear All

Further to submission circulated from Poppleston Allen this morning, please find attached the following:-

- Email correspondence between the applicant and the Licensing Authority agreeing a condition
- Late submission from the Citizen Advice Bureau representing a number of the objectors
- Further comments and observations from an objector as shown below:

***On behalf.....:***

***I am interested to know at what time of the year the audio tests were taken? Every Summer, when we have some warmer weather, on karaoke nights, the Admiral Duncan opens up windows & keeps the main door open (please note my previously submitted photographs showing the proximity). As you can imagine, the escaping sound is far louder than the same musical event in the Autumn/Winter months. Would any extension to the licensing hours take this into consideration? Or does the council believe the sound proofing additions proposed will cover this?***

***Thankyou for your time and consideration and my apologies that I am physically unable to attend the meeting on October 24th 2019 and I look forward to hearing from you with the outcome to this application.***

Toby, please kindly circulate to Members ahead of the hearing on Thursday and I confirm that copies of the late submissions have been sent to all interested parties.

Kind regards

Michelle

**Michelle Steward**
