Dear Carolina,

Ongoing Employment Support from Capital Arches Group

I just wanted to thank you for your continued support of our employment support programme. To date, I have been informed that you have placed 33 people into employment through Recruit London, and one of this intake has now started your management training programme and will become a Shift Manager next year. The person in question, I understand, is a mother of three and the flexibility you offer suits her family very well.

I look forward to our continuing collaboration to assist our residents into work, and as you have emphasised before, the chance to advance in your structured career development scheme.

Yours sincerely

Greg Ward
Director of Economy
