Letter of support for Capital Arches Group Limited

Capital Arches Group have supported the Young Westminster Foundation since the charity started operating in May 2017. The business was one of the first local organisations to commit to becoming a 'founding partner' of the foundation. We identified some common areas of interest around supporting local young people with opportunities.

As well as donating £10,000 as a founding partner, the team from Capital Arches Group has supported the foundation in the following ways:

- Hosted events and visits, providing catering for meetings with our young ambassadors.
- Promoted apprenticeships and training opportunities to our young people, including sending volunteers to our promotional events.
- Claude Abi-Gerges, CAG Director, spoke at our launch event at Madame Tussaud's to help promote the foundation and secure further partners.
- Attended our Small Grants Committee to help select projects and decide how the money was to be spent.
- Hosted visits and placements for young people from our partner organisations including from Caxton Youth who support young people with disabilities.

We are looking forward to working with Capital Arches Group for the longer term and believe that the company is doing some great work to support the local community.

Best wishes

Philip Barron
