Report of:	Yacoba Godwyll, Voluntary Sector Commissioning Officer 020 7641 8024 ygodwyll@westminster.gov.uk

1. Executive Summary

- 1.1 It was considered at the London Councils Grants Committee on 21st November 2019 and agreed at the Leaders' Committee of 3rd December 2019 that the overall level of expenditure for the London Borough Grants Scheme for 2020-21 will be £6.668m. Borough contribution will make up £6.668m which is the same as the current year.
- 1.2 This report presents the Cabinet Member for Sports, Culture and Community with the London Councils proposal for budgets and the constituent Councils' contributions, including WCC contribution, to the London Borough Grants Scheme for 2020-21.

- 1.3 WCC contribution will be £0.191m. This is an increase by £6,149 from the contribution in 2019-20. The contribution is based on the ONS mid-year population estimates for June 2018.
- 1.4 The London Councils is requesting formal responses from each constituent Council regarding the proposed budget and contributions by 17th January 2020. The budget must be agreed by two-thirds (22) of constituent Councils before 1st February 2020. If not, the overall level of expenditure will be deemed to be the same as that approved for 2019-20 (i.e. £6.909m).

2. Recommendations

- 2.1 The Cabinet Member endorses the proposed overall level of expenditure by the London Councils Grants Committee and agrees the WCC contribution of £0.191m for 2020-21.

3. Reasons for Decision

- 3.1 The London Boroughs Grants Scheme is the London-wide body created to make grant-aid available to voluntary organisations operating across more than one borough. Each year the London Councils Grants Committee proposes an overall level of expenditure for the Scheme which is recommended to the London Boroughs and the Cities of London and Westminster for agreement.
- 3.2 Constituent councils are required to contribute to any London Boroughs Grants schemes expenditure, which has been incurred with the approval of at least two-thirds of the constituent councils. Contributions are, under Regulations 6(8) of the Levying Bodies (General) Regulations 1992, to be proportional to constituent council's populations. For 2020-21, the apportionment is based on the ONS mid-year estimates for June 2018 in accordance with Section 48 (4) of the Local Government Act 1985, which states that "the population of any areas shall be taken to be the number estimated by the Registrar General and certified by him to the Secretary of State by reference of such a date as the secretary of State may from time to time determine" This year London Council's has set a deadline of 17th January 2020 (with an absolute deadline of 24th January 2020). If at least two-thirds of the constituent Councils pass the resolution in their own Councils to ratify and give effect to that overall level of expenditure, the overall level of expenditure and contributions become binding on all the constituent Councils.
- 3.3 If constituent Councils are unable to reach agreement by the two-thirds majority required before 24th January 2020, the constituent Councils will be deemed, subject to any order made under section 48(5) of the Local Government Act 1985, all to have given their approval to total expenditure of an amount equal to that which was approved in 2019 -20, i.e. £6.909m.

4. Background, including Policy Context

- 4.1 London Councils undertook a consultation in 2015 which all boroughs were invited to participate in, the purpose of which was to review the scope and priorities of the programme for 2017-2021. The findings highlighted that the overall view is that the programme should continue and support the existing priorities around tackling homelessness, sexual and domestic violence and poverty (by promoting access to employment and training).
- 4.2 The apportionment of contributions for 2020-21 is based on ONS mid-year estimates for population for 2018. For WCC the 2018 figures show an increase from the June 2017 ONS mid-year estimates of £244,80 to £255,32.
- 4.3 Appendix A shows the profiled income and expenditure for the grants committee for 2020-21.
- 4.4 Appendix B provides details of the proposed Borough Subscriptions to the London Boroughs Grants Scheme for 2020-21.

5. Financial Implications

- 5.1 WCC's proposed contribution for 2020-21 is £0.191m which is an increase by £6,149 on the contribution for 2019-20.
- 5.2 The provision for this contribution exists within the overall Voluntary Sector Support budget of £1.652m.

6. Legal Implications

- 6.1 WCC's legal obligation to make the recommended contribution is set out in paragraph 3.3 above.

7. Equalities Implications

- 7.1 As part of the re-focussing of the future Grants Programme, to reflect the reduced resources available in the context of significant spending constraints facing local authorities, London Councils determined that the proposals will have an impact upon groups protected under Equalities Legislation.
- 7.2 Non-budgetary decisions regarding the Grants Programme, were taken with the intention of applying scarce resources whilst mitigating any adverse equality impacts arising from a re-focused Grants Programme operating with a reduced budget.

8. Consultation

- 8.1 London Councils has completed extensive consultation concerning the content of its proposed Grants Programme. The budget proposals enable London Councils to complete the continued delivery of the programme and provide grants to voluntary organisations in 2020-21
