Report of:	Phil Triggs Tri-Borough Director of Treasury and Pensions pdriggs@westminster.gov.uk 020 7641 4136

1. Executive Summary

- 1.1 The risk register is divided into two sections: governance (investment and funding) and pensions administration. The top five risks are highlighted in the report below.
- 1.2 The cashflow forecast for the next three years has been updated, with actuals to 31 March 2023 for the Pension Fund bank account and cash held at custody (Northern Trust). The bank/cashflow position continues to be stable.

2. Recommendations

- 2.1 The Committee is asked to note the top five risks for the Pension Fund.
- 2.2 The Committee is asked to note the cashflow position for the Pension Fund bank account and cash held at custody, the rolling twelve-month forecast and the three-year forecast.

3. Risk Register Monitoring

3.1 The risk register is divided into two sections: investment and pensions administration. The risk groups have been updated to reflect the CIPFA guidance on risk categories. The current top five risks to the Pension Fund, as updated in June 2023, are highlighted in the table below:

CIPFA Risk Group	Risk Rank	Risk Description	Trending
Liability Risk	1 st /42	Price inflation is significantly more than anticipated in the actuarial assumptions. Inflation continues to remain high in the UK and globally due to labour shortages, supply chain issues, and the ongoing Russia-Ukraine conflict. CPI inflation was 8.7% as at April 2023, down from the peak of 11.1% in October 2022.	
Asset and Investment Risk	2 nd /42	Investment managers fail to achieve benchmark/outperformance targets over the longer term: a shortfall of 0.1% on the investment target will result in an annual impact of £1.8m. The Fund returned 0.47% net of fees in the year to 30 April 2023, underperforming the benchmark by -0.65% net of fees. Much of this underperformance can be attributed to the long lease property and fixed income mandates.	
Asset and Investment Risk	3 rd /42	Increased risk to global economic stability, with the collapse of a number of banks since March 2023. Outlook deteriorates in advanced economies because of heightened uncertainty and setbacks to growth and confidence, with volatility in oil and commodity prices, as well as the weakening of the pound. Leading to tightened financial conditions, reduced risk appetite and raised credit risks.	
Regulatory and Compliance Risk	4 th /42	The Department for Levelling Up, Housing and Communities (DLUHC) has proposed new regulations for Local Government Pension Scheme (LGPS) administering authorities in England and Wales to assess, manage and report on climate-related risks, in line with the recommendations of the Taskforce on Climate Related Financial Disclosures (TCFD). The first reporting year is now expected to be the financial year 2024/25, with the regulations now delayed. Therefore, the first reports will be required by December 2025.	
Liability Risk	5 th /42	Failure of an admitted or scheduled body leads to unpaid liabilities being left in the Fund to be met by others. Current economic conditions will cause strain on smaller employers.	

4. Cashflow Monitoring and Forecasted Cashflows

4.1 The balance on the Pension Fund’s Lloyds bank account as at 31 March 2023 was £774k. This account is the Fund’s main account for day-to-day transactions, including member contributions and pension payments. Payments from the bank account will continue to exceed receipts on an annual basis. During the year, withdrawals from cash at custody are expected to take place to maintain a positive cash balance.

4.2 The graph shows changes in the bank balance from 1 April 2022 to 31 March 2023.

4.3 Payments and receipts have remained stable over the last 12 months. Officers continue to keep the cash balance under review and take action to maintain necessary liquidity. During the quarter, the Fund withdrew £3m from cash at custody to maintain a positive cash balance.

4.4 The Pension Fund held £19.4m in cash with Northern Trust as at 31 March 2023. Fund manager distributions, proceeds/withdrawals from the sale of assets and purchases of assets, take place within the Fund’s custody account at Northern Trust. The following table shows the cash inflows and outflows within cash at custody for the three-month period from 1 January 2023 to 31 March 2023.
