

**Meeting:** *Children and Community Services Policy and Scrutiny Committee*  
**Date:** *24<sup>th</sup> November 2014*  
**Title:** *Better City Better Lives, Children and Young People Progress Report*  
**Report of:** *Councillor Chalkley, Cabinet Member for Children and Young People*

## **1 Better City, Better Lives Priorities**

### **1.1 We will ensure that at least 80% of resident children in the borough are granted at least one of their top three preferences for schools.**

In March 2014, 94.9% of Reception Class and 83.6% of Secondary transfer resident children were granted at least one of their three preferences. This compares to 95.7% (national) and 92.5% (London) for Primary Schools and 95.5% (national) and 90.7% (London) for Secondary school.

### **1.2 We will provide 240 extra primary school places and 60 extra secondary school places in 2014/15, ensuring we keep pace with projected demand.**

In 2013-14 the Primary capacity was 11,751 places and Secondary capacity was 10,002 places. For 2014-15, ARK Atwood has opened with the full 420 with the full complement of 420 Primary pupil places. No new Secondary places have been provided as yet but a working party has visited a number of sites to assess future options as part of a programme to deliver 435 new places by 2017.

### **1.3 We will ensure that at least 80% of children in foster care are placed locally through the Tri-borough Fostering and Adoption Service.**

In 2013-14, 83% of young people requiring foster care were placed with Tri-borough foster carers. Since April 2014, 66% (33 of the 50) children or young people requiring foster placements have been placed with Tri-B foster carers. Seven referrals are ongoing which may improve the percentage rate.

### **1.4 We will ensure that all children, in new proceedings starting 1 April 2014, with a plan for adoption, will be placed with their adopters within 12 months of coming into care.**

In 2013-14, eight children had placement orders starting after April 2013 and two of these children were placed with their adopters within 12 months. As at 30th September 2014 there were three children in the adoption process whose placement orders started after April 2014. Of these, two were placed with adopters within the 12 months timescale. The third case has been in the adoption process for six months and is currently waiting to be matched to adopters.

### **1.5 We will provide 675 free day care opportunities for two year olds.**

The DfE termly data release now includes all families who meet either the 20% or 40% entitlement from the expanded eligibility criteria. 801 families in Westminster have been identified, an increase of 19% from the initial termly release of (675). 61% (491) meet the 20% criteria and 39% (310) meet the 40% criteria. At present there are sufficient places to meet demand. Capacity building, especially with schools and other early years provision, is focused on creating additional places for the Spring 2015 term onwards.

**1.6 We will ensure that at least 50% of families on the Troubled Families programme will have resolved their offending, anti-social behaviour and poor school attendance.**

In October (the latest Payment by Results claim) we have achieved Payment by Result (PbR) turn around for 52% in the now reduced Westminster cohort. Following negotiations with Department for Communities and Local Government (DCLG) a reduced cohort size from 790 to 640 has been agreed with DCLG. There are two more payment by results windows until the end of Phase 1 of the Troubled Families programme, January 2015 and May 2015. Westminster is on track for 75-80% PbR turn round by that time.

**1.7 We will ensure that there is a place in education, employment and training for every young person after they complete their GCSEs.**

In September 2014, 99% of school year 11 leavers had an offer of a place; this provisional figure is comparable to the figure of 99.6% for the 2013 year. The activity survey which will show post 16 transition outcomes will be finalised on 31<sup>st</sup> October 2014 and published in December 2014.

**1.8 Working with the Sir Simon Milton Foundation, Network Rail and the University of Westminster, we will start on the building of the University Technical College to ensure that Westminster has a skills ready workforce which matches the needs of the employment market.**

A consortium of Bouygues-Redrow has been appointed by the City Council as the developer for the UTC and a detailed planning and building programme together with risk analysis and options is being prepared.

The UTC Principal is currently being recruited with interviews and appointment before Christmas. An amended Educational Brief has been submitted to the Government together with our admissions policies. Both documents will be refined by the Principal when in post. Prior to Christmas, a statutory education consultation will be undertaken and also the planning consultation prior to the submission of a planning application by mid December or early January 2015.

**1.9 We will ensure that 75% of Westminster's pupils will achieve 5 grade A\*-C at GCSE, including English and Mathematics, in 2014.**

In 2013-14 Westminster published results of 71% of Westminster pupils achieving 5 grade A\*-C GCSEs, including English and Maths, compared with 70% the previous year. This result maintains Westminster's position well above the national rate of 53% (which is down from 59% in 2013). DfE have published provisional results showing that 67% of Westminster pupils achieved 5 grade A\*-C GCSEs, however this figure is still being finalised with schools and a final figure will be known in January 2015.

**1.10 We will promote school readiness, testing new approaches through the Neighbourhood Community Budget Pilot in Queens Park.**

An integrated (health and education) 2 year assessment is being piloted in Queens Park Ward between Sept 2014 – Dec 2014. Year to date, 53% (41 of 77) 2 year old children have had a 2 year old assessment in their setting. Ten parents have attended parenting skills training in the 1st year of their child's life which is on track to achieve the target of 14. Five community champions recruited since April 2014.

**1.11 We will increase the proportion of children in Westminster Primary Schools who achieve or exceed Level 4 in Reading, Writing and Mathematics in Standard Attainment Tests [SATs] to 80%.**

The 2014 Primary school Key Stage 2 L4+ results for 2014 are 85% (up from 79% in 2013). This is well above this year's national average of 79%.

**1.12 We will hold more perpetrators of domestic violence to account for their actions through prosecution and effective programmes which address their behaviour.**

In Westminster City Council, every woman will now be asked whether they have experienced domestic abuse during the course of any social work assessment. During the second quarter of 2014, every father

or male carer will be included and spoken to as part of any social work assessment especially those triggered by reports of domestic abuse.

**1.13 We will ensure that 75% of 2 year olds in Westminster will receive a developmental review, targeting 2 year olds in the city's most deprived wards.**

Information on this project will be provided by Public Health for the next Policy and Scrutiny Committee.

**1.14 We will reduce the numbers of adolescents needing to come into care to 45.**

Since April 2014, 32 (68%) of the 47 of young people coming into care were aged 14-17 years. Westminster continues to have a higher rate for Unaccompanied Asylum Seeking Children (UASC) and secure remands. There has also been a number of European Nationals who are 17 years old who arrived in the UK or were abandoned here who have sought accommodation under the Children Act 1989 Section 20 status as young people with no person who has parental responsibility for them in the UK.

**1.15 We will reduce the number of 16-18 year olds [years 12 and 13] Not in Education, Employment and Training [NEET] to 37.**

Due to school holidays information as at July 2014 provides the most current status. In July 2014, 39 young people in school years 12 and 13 were recorded as being NEET. Of these, 13 (1.2%) were in school year 12 and 26 (2.3%) in school year 13. The annual activity survey is due to be published by DfE in December 2014 and provides information on the current activity of year 11s.

Three Month Averages - NEET June 2014	Academic Age 16 -18 (year 12-14)								Change between ave
	2013-14				2012-13				
	Apr-14	May-14	Jun-14	Ave	Apr-13	May-13	Jun-13	Ave	
ENGLAND	5.3%	5.4%	5.5%	5.4%	5.9%	5.9%	6.0%	5.9%	-8.5%
LONDON	4.0%	4.1%	4.1%	4.1%	4.8%	4.8%	4.8%	4.8%	-14.6%
Westminster	3.2%	3.3%	3.3%	3.2%	7.7%	7.8%	7.6%	7.7%	-58.4%

**1.16 We will increase the number of Care Leavers who are in Education, Employment and Training [EET]**

As at 31<sup>st</sup> March 2014: 68.6% (83 of the 121 young people) were in education, employment or training. As of 30<sup>th</sup> September 2014 61% of care leavers who were EET. The target for care leavers who are EET is 75%.

**1.17 We will improve our approach to joint safeguarding with the Police in relation to Child Sexual Exploitation [CSE].**

Westminster Children's Services and the Metropolitan Police are subject to Pan-London Child Sexual Exploitation Operating Protocols. All new cases are assessed by the Multi Agency Safeguarding Hub [MASH]. Police are invited to all Strategy Meetings regarding CSE cases as part of Joint Investigation Protocols. The new Police Pan London Missing Persons Team will link with Tri- Borough MASH.

**1.18 We will work with more than 30 families in 2014/15 to ensure their children, who are disabled or have special educational needs, have the support of a joined-up Education, Health and Care Plan.**

Following the implementation of the Children and Families Act in September 2014 we have started the process for assessing young people for a joined-up Education, Health and Care plan. Following the first half term we have started the 20 week assessment process with eleven young people and their families from Westminster, which means we are on target to work with 30 families by the end of the academic year.

**1.19 We will train twelve young people with special educational needs to enable them to travel to and from school independently.**

Travel trainers have worked with ten WCC children over the last year, to enable them to travel to and from school independently. More young people will be identified for this support during the 2014/15 academic year, starting from September 2014.

**1.20 We will provide ten young people who have learning difficulties with local specialist further education provision to support them in gaining independence and employment.**

In September 2014 the new build Kennet West Skills centre opened its doors to its first cohort of learners. Fifteen WCC young people will be attending the Kennet West Skills centre partnership between QEII/Westminster Kingsway College from September 2014. The provision has 18 learners enrolled (10 from WCC) and will increase to 30 places from 2015.

**1.21 We will increase the number of mentors who work specifically with young people involved in crime to reduce their re-offending to 80%.**

Currently, 50% of our highest risk young people are offered a mentor. We currently have a cohort of mentors who are undergoing enhanced training on working with our young people involved in the criminal justice system. We are working to increase the number of volunteer mentors so that we have a pool of volunteers to match the assessed needs of these young people.

**1.22 We will provide more support for young carers.**

Spurgeons now have an established venue (Ebury Bridge Centre) in Westminster which has become a popular spot for many young carers attending ongoing group sessions that are delivered at the centre. Youth carers attendance has steadily increased since the July 2014 engagement event, with seven new carers accessing their services in Westminster.

**1.23 We will support more vulnerable children [e.g. Looked After Children, children in need of Education, Health and Care Plan] to transfer successfully from primary to secondary school.**

There are a total of 71 children at level one (highest level of need). All these children have now been made an 'offer' of support based on the available interventions and progress will be followed up on a one to one basis between now and December 2014.

**1.24 We will improve the health of children and young people by encouraging families to use primary care services more effectively and reducing attendance at A&E by 10%.**

The three Inner London CCGs (Hammersmith and Fulham, West London and Central London CCG) are developing local 'Connected Care for Children' clinics based in GP surgeries. The Connected Care for Children model which links hospital based paediatricians to GP surgeries continues to be rolled out on a pilot basis by all three inner London CCGs with initial results confirming high satisfaction levels from families. Data regarding the 10% reduction target is currently being processed and will be provided to the committee at the meeting on 12<sup>th</sup> January.

**1.25 We will improve safeguarding actions by Children's Services, Health and Police in relation to FGM.**

We are working with Health to agree a protocol whereby all women who have suffered FGM are referred to Social Care for a social assessment of circumstances and have developed written materials for families from affected communities. Workshops for staff have been held to ensure that all staff are trained in being able to identify and prevent FGM. A three month (October to December 2014) pilot project is being developed to support and assess mother's who have had FGM and give birth to girls or have girls in the family. As at September 2014 there had been 18 referrals which is an increase from 3 referrals at the start of reporting.

**1.26 We will reduce the numbers of young people offending by 20% [to 69 young people from 87].**

As MOJ information is published six months in arrears. MOJ have recently published a recalculated figure for the previous year (April 2012 to March 2013) which shows 101 First Time Entrants in Westminster (an increase from the 87 previously published by MOJ). If the target reduction in numbers remains to reduce to 69 this will be difficult to achieve in 2014-15 as it represents a 32% reduction in numbers. A 20% target based on the recalculated figure would be a reduction in numbers to 81 young people from 101.
